Modifica valore al contatore

11 · created 12 minutes ago by The Alternate Prof

updated 12 minutes ago

□□□□: □□□□□□□□□□ □□ □□□□□□□□□□

□□ □□□□□□ □□□□□□□□ □□ □□□□□□□□□□.....

The screenshot shows a code comparison interface. At the top, it says "Compare main and latest version" with a dropdown menu. On the right, it indicates "4 files +7 -29" and a settings icon. Below this is a search bar "Search files (Ctrl+P)".

The left sidebar shows a file tree for "DemoGit" with the following files and their change counts:

- src
- Contatore.java +1 -1
- .classpath +0 -10
- .gitignore +6 -1
- .project +0 -17

The main area displays the diff for "DemoGit/src/Contatore.java" with a change count of "+1 -1". The code is shown in a table format with line numbers in the first column and the corresponding line in the second version in the second column. The diff shows the following code:

```
1 -  
2 1 public class Contatore {  
3 2  
4 3     public int getValore() {  
  
        Show 20 lines Show all unchanged lines Show 20 lines  
13 12  
14 13     public static void main(String[] args) {  
15 14         Contatore c= new Contatore();  
16 15 +         c.setValore(6);  
17 16         System.out.println("Valore del contatore: "+c.getValore());  
17 17  
18 18     }  
  
        Show 20 lines Show all unchanged lines
```

Below this, the diff for "DemoGit/.classpath deleted" is shown with a change count of "+0 -10". The code is:

```
1 - <?xml version="1.0" encoding="UTF-8"?>  
2 - <classpath>
```
